

- 63 mm ball
- no sealing
- professional office use

DESKTOP OFFICE TRACKBALL

The R60 is a professional desk top trackerball. This trackerball is designed for comfort over prolonged periods of use. Constructed from toughened moulded plastic and featuring robust mechanics, it is ideally suited for use where reliability and an extensive live span are prerequisites. This unit has also a very high tracking resolution, which makes it ideal for all menu driven applications, as well as for all applications which require very accurate pointer control.
